Subject: Label Amendment – Addition of state restrictive language for California.
Product Name: Bifenthrin RTU
EPA Registration Number: 53883-185
Application Date: October 3, 2018
Decision Number: 544937

Dear Ms. Cooley:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

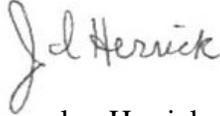

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

FIRST AID	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information on this product, contact the National Pesticide Information Center, 1-800-858-7378. You may also contact the National Poison Control Center, 1-800-222-1222, day or night, for emergency medical treatment information or SafetyCall® at (866) 897-8050.	
IF IN EYES	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye• Call a poison control center or doctor for treatment advice
IF SWALLOWED	<ul style="list-style-type: none">• Call a poison control center or doctor immediately for treatment advice.• Have person sip a glass of water if able to swallow.• Do not induce vomiting unless told to do so by a poison control center or doctor.• Do not give anything by mouth to an unconscious person.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS**

CAUTION: Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

ENVIRONMENTAL HAZARDS: This pesticide is extremely toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Drift and run-off from treated areas may be hazardous to aquatic organisms in neighboring areas. Care should be used when spraying to avoid fish and reptile pets in/around ornamental ponds.

This product is highly toxic to bees exposed to direct treatment or residues on blooming plants or weeds. Do not apply this product or allow it to drift to blooming plants crops if bees are foraging the treatment area

PHYSICAL OR CHEMICAL HAZARDS: Do not apply this product in or on electrical equipment due to the possibility of shock hazard.

NOTICE: To the extent consistent with applicable law, Buyer assumes all responsibility for safety and use not in accordance with directions.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

People and pets may enter treated areas after spray has dried.

Do not water the treated area to the point of run-off. Do not make applications during rain.

All outdoor applications, if permitted elsewhere on this label, must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses, if allowed elsewhere on this label:

1. Applications to soil or vegetation, as listed on this label around structures;
2. Applications to lawns, turf and other vegetation as listed on this label;
3. Applications to the side of a building, up to a maximum height of 3 feet above grade;
4. Applications to underside of eaves, soffits, doors, or windows permanently protected from rainfall by a covering, overhang, awning, or other structure;
5. Applications around potential pest entry points into buildings, when limited to a surface band not to

Bracketed text [] is optional marketing statements

exceed one inch in width;

6. Applications made through the use of a coarse, low pressure spray to only those portions of surfaces that are directly above bare soil, lawn, turf, mulch or other vegetation, as listed on this label, and not over an impervious surface, drainage or other condition that could result in runoff into storm drains, drainage ditches, gutters, or surface waters, in order to control occasional invaders or aggregating pests.

Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications, only.

FOR USE ON

Floor coverings, cracks & crevices in walls and along baseboards, beneath & behind refrigerators, stoves and sinks, & cabinets, around plumbing pipes & fixtures, garbage cans and waste storage areas, window frames & doorways, porches & patios, eaves, exterior siding & foundations, in cabinets/pantries, listed vegetable gardens, melons and fruit trees and other areas inside or outside the home where listed insects exist.

PESTS CONTROLLED

Ants (including carpenter ants & foraging fire ants & harvester ants), boxelder bugs, carpet beetles, centipedes, clover mites, crickets, earwigs, firebrat, fleas, flies (including house flies), grasshoppers, millipedes, mosquitoes, moths, confused flour beetle, granary weevil, indian meal moth, red flour beetle, rice weevil, saw-toothed grain beetle, roaches, scorpions, silverfish, sowbugs (pillbugs), spiders (including black widow, brown recluse & daddy long legs spiders), ticks (including ticks that may transmit lyme disease), and other insects that may be found in the use areas.

APPLICATION INSTRUCTIONS

Make sure container is securely closed and **shake well before use**. Adjust spray nozzle to deliver a stream for cracks and crevices or a coarse spray for other areas. Hold sprayer 12 inches from the insect or surface being sprayed. Use only for spot treatment. Do not spray into the air. Spray until slightly wet without soaking. Do not allow this product to contact food, foodstuffs, food preparation areas or utensils and water supplies.

INDOOR APPLICATIONS

Use BIFENTHRIN RTU to control ants (including carpenter ants & foraging fire ants & harvester ants), carpet beetles, crickets, earwigs, firebrats, fleas, flies, (including house flies), mosquitoes, moths, roaches, scorpions, silverfish, spiders (including black widow, brown recluse, & daddy long legs spiders) & ticks (including ticks that transmit lyme disease).

Spray corners of rooms and closets, cracks and crevices in walls, along baseboards, beneath & behind refrigerators, stoves, sinks, & cabinets, around plumbing pipes & fixtures, around doors & window frames and other areas where these insects may be found.

FLEAS & TICKS (INCLUDING TICKS THAT MAY TRANSMIT LYME DISEASE)

Remove pets from the areas to be treated and do not allow back into the treated areas until the spray has dried.

DO NOT TREAT PETS WITH THIS PRODUCT. To control the source of flea infestations, pets inhabiting the treated premises should themselves be treated with a product registered for application to animals.

Bracketed text [] is optional marketing statements

Spot-Treat infested areas such as pet resting areas and other localized areas of floor covering where fleas and ticks may be present.

Remove and replace old pet bedding with clean fresh bedding after treating for fleas and ticks in the pet area.

PANTRY PESTS

Remove all items from cabinets/ pantries. While removing, inspect all food items, especially dried food products, and dispose of any infested items. Clean cabinets/pantries thoroughly. Spray cracks and crevices along shelves in cabinets/pantries. After spray has dried thoroughly, replace only non-infested items.

OUTDOOR APPLICATIONS

Use BIFENTHRIN RTU to control ants (including carpenter ants, & foraging fire ants, and harvester ants), boxelder bugs, centipedes, clover mites, crickets, earwigs, fleas, flies, (including houseflies), grasshoppers, millipedes, mosquitoes, moths, roaches, scorpions, sowbugs (pillbugs), spiders (including black widow, brown recluse & daddy long leg spiders), ticks (including ticks that transmit Lyme disease) and other insects that may be a problem.

Spray garbage cans and waste storage areas, around window frames and doorways, surfaces around light fixtures, cracks and crevices around porches and patios, eaves, exterior siding, foundations and localized infestations in weeds or around ornamental plants.

HOME VEGETABLE GARDENS, MELONS and FRUIT TREES

For use on listed garden vegetable and fruit trees

BIFENTHRIN RTU kills Aphids, Armyworms, Bagworms, Cutworms, Fall webworms, Flea beetle, Lacebug, Leafhopper, Mites (clover and spruce), and Plantbugs on listed vegetables, melons and fruit trees.

Apply when insects/pests first appear as a thorough spray, wetting leaves and branches, but do not let runoff occur. Re-apply as necessary to maintain control waiting at least 7 days between each application.

VEGETABLES AND FRUITS*	DAYS TO WAIT TO HARVEST
Tomatoes, Strawberries, Citrus, Corn (Sweet)	1
Caneberries, Raspberries, Succulent peas and beans, Cucurbits (cucumber, gourds, muskmelon, pumpkin, squash, watermelon)	3
Artichoke	5
Brassicas (broccoli, Chinese broccoli, cabbage, cauliflower, kohlrabi, Chinese mustard), Eggplant, Head lettuce, Peppers (bell and non-bell), Walnut	7
Pears	14
Pecans	21

*Not registered for use in CA unless accompanied by supplemental labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry, secure place. Do not store near seeds, fertilizers, or foodstuffs.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Pesticide wastes are toxic. Improper disposal of excess pesticides, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Non-refillable container. Do not reuse or refill this container. Completely empty bag into application equipment. Then offer for recycling if available or dispose of empty bag in a sanitary landfill, or by other procedures approved by state and local authorities.
